# Striving for a food-secure future

At Olam Agri, we believe that it is our responsibility to protect the planet and create a better tomorrow for generations to come. That's why we are investing in sustainable farming practices, reducing our carbon footprint, and promoting the well-being of the communities where we operate.

Our commitment to sustainability is not just good for the environment; it's also good for business.

## ABOUT THE 2023 EVENT

The Ghana Agriculture and Agro Processing Awards brings together players of the agriculture and agro processing industry. This awards recognize achievements of individuals and companies that play a significant role in the development of the agriculture sector while recognizing the key functions within the industry that promote standards, excellence, innovation in the agribusiness and stewardship. This is the premier event in Ghana which showcases on a national scale the prudence, and innovation within the Ghanaian Agriculture sector.

The Awards recognize the industry's merits and set a benchmark for excellence, whilst rewarding innovative ideas that have pushed the boundaries of what is possible. The Awards recognizes excellence in the agricultural industry cutting across industry and individual excellence.

The Ghanaian economy has become increasingly reliant on agriculture and agro produce to sustain growth and development. Industrialization and productivity improvement programmer are been made to expand the yields of the agriculture sector, as well as creating jobs and encourage greater private sector participation.

## PURPOSE

- To bring together business players and recognize achievements from local and international companies involved in various sectors.
- To reward those that have played a role in moving industries and businesses forward and have demonstrated achievement across a wide variety of domains including customer service, safety, performance , leadership, prudence, operational and product excellence, innovation and others.

## CATEGORY CRITERIA

The companies and individuals selected for the Ghana Agriculture and Agro processing Awards are evaluated and graded by the Awards' Research Board, by running an independent survey using engagement methodologies under the selection criteria below:

**Quality**

**Innovation**

**Market Dominance**

**Business Resilience**

**Customer Loyalty**

**Corporate Social Responsibility**

**Industry Merits.**

## **MADAM FELICIA TWUMASI (CEO, HOMEFOODS PROCESSING AND CANNERY COMPANY)**

Felicia Twumasi, the founder and Chief Executive Officer of Homefoods Ltd is a graduate of the Kwame Nkrumah University of Science and Technology in Ghana and the Harvard Business School, Boston, U.S.A. She is also a graduate and member of Stanford Institute of Innovation in Developing Economies, SEED. Her motivation to start her own business began at an early age while at a convent school in Elmina in the Central Region of Ghana. On seeing many of her friends drop out of school when their fathers die, Felicia vowed to be financially and economically independent to avoid having to put her children through the ordeal of illiteracy. Ending a teaching career that lasted over a year, she went on to set up what is now Homefoods in 1995. She began a food processing business with one staff and her daughter from her kitchen table in a rented house. She has a passion to engage and train women outgrowers as trade partners of Homefoods, therefore empowering them to give better lives to their families. This motivation has led her to steer Homefoods to be the multi-million dollar company today and beyond; a landmark which earned her a place in the International WHO'S WHO of Professionals in August 2009.
